

## How do I put together an Overdose Rescue Kit?

### **An intranasal naloxone kit must include:**

- 2 doses of intranasal naloxone
- 2 mucosal atomizer devices (nose pieces)
- 1 face mask for rescue breathing
- 1 pair of latex gloves

### **An injectable naloxone kit must include:**

- 2 vials (each vial is 1 dose) of naloxone
- 2 intramuscular syringes
- 1 face mask for rescue breathing
- 1 pair of latex gloves
- 2 alcohol prep pads

### **In addition, we recommend you include:**

- 1 yellow “Prevent Drug Overdose” palm card, available in English and Spanish
- Graphic instruction sheet by HRC on how to put together intranasal naloxone (for the intranasal kits only), available in English and Spanish

*NOTE: Before distributing a kit, make sure that the naloxone has not expired!* Expiration dates are printed on the end of the box of the intranasal dose, and on the label of the bottle of the injectable dose. If the naloxone will expire within the next 6 months, do not dispense it. Order a new supply.

## Where do I order supplies for an overdose rescue kit?

Item	How many should I order for each kit?	Where item comes from	Form to fill out to order item	Submit form to
Blue nylon Overdose Rescue Kit bags	1	Foundation for AIDS Research (NYS DOH)	NYS DOH AI Injectable Naloxone & Kit Order Form	Lisa Chiu Fax: (212) 806-1601 <a href="mailto:Lisa.chiu@amfar.org">Lisa.chiu@amfar.org</a>
